## Services Available through Partnership for Behavior Change

We have two Board Certified Behavior Analysts on staff who can complete thorough assessments for children diagnosed with autism, Aspergers, or PDD. We provide fee-for-service behavior management, autism, and sexuality education services in St. Joseph and Elkhart counties in Indiana.

We also work with students from IUSB who have completed at least some courses in a 3-course sequence approved by the Behavior Analyst Certification Board. The students provide most of the direct services, however, the behavior analyst will always be in direct contact, provide direct supervision, and be on-site for sessions on a regular basis.

We are happy to contract with your insurance company. Indiana has an autism mandate, which requires most employers to pay for services related to autism and prescribed by a physician. ABA services fall within this area.

For those whose insurance will not cover services, we will work with you to make our services affordable on a fee-for-service basis.

## **Services**

Written by Sorah Stein Tuesday, 31 May 2011 03:03 - Last Updated Sunday, 04 November 2012 14:37

We are also available for **FREE** group parent training sessions about developmental disabilities, autism, and ABA.

\*\*\*We have immediate openings for new, home-based patients. Currently accepting most commercial insurance, as long as the employer includes autism services as a benefit. Working on the paperwork for Special Children's Health Care Services! And hope to announce SOON the opening of 2 small ABA service centers; one in Warsaw and one in South Bend!\*\*\*

Hoping to have more news soon.\*\*\*
